NATIONAL PUBLIC SLEEPING DAY

If you're tired on February 28th, it might be because National Public Sleeping Day encourages a mid-day nap right where you are.

There are different types of naps.

The **Power Nap** is approximately 10 to 20 minutes long and can give a boost of energy to get us through the rest of the day. It also doesn't leave us drowsy like some longer naps might and will also allow us to fall asleep at a decent time at night.

The **Hangover** is about 30 minutes long, 10 too many, leaving us loopy and wanting just to stay asleep. We will snap out of it and feel much like we had a Power Nap, but it may take a bit of effort before we feel those benefits.

The **Brainiac** lasts about 60 minutes and includes the deepest sleep. While we may feel a little grogginess upon waking, much like the Hangover, our ability to recall facts, names, and faces, will be improved. This type of nap may be the best nap after a round of studying or before a big test.

The **California King** lasts about 90 minutes and is typically a full cycle of sleep. It will also include REM or a dream stage. This nap avoids the hangover like the power nap does and improves creative thinking and motor memory, but nighttime sleep may become elusive.

Ansley Ag Updates

The Intro to Ag classes and Animal Science classes enjoyed their animal anatomy unit where we finished with dissecting fetal pigs. The students learned the anatomy of the pig including digestive, respiration, and circulatory tracks. They also learned proper personal protective equipment. It was fun to see the students use inquiry skills that transfer to a number of other events that we will use throughout the year!

Here is Sam L. Cooper S. and Kolby L. preparing to start their dissection in the fifth-period Intro to Ag class.

PREPARATION

When ready to cook, set the temperature to High and preheat, lid closed for 15 minutes.

Season the roast liberally with Traeger Beef Rub and salt. Place roast directly on the grill grate and cook for 45 minutes until the exterior starts to caramelize and brown.

Reduce the grill temperature to 325°F and continue to cook roast until the internal temperature reaches 125°F, about 75 minutes.

Remove roast from grill and let rest for 15 minutes before slicing. After resting, thinly slice the meat on a meat slicer or with a very sharp knife. Set meat aside.

For the Caramelized Onions: Place butter and onions in a sauté pan and cook over medium heat. Season liberally with salt and cook, stirring frequently until the onions are browned and caramelized. If the bottom of the pan starts to stick before the onions are completely cooked through, add 1 Tbsp of water, scrape up the browned bits with a wooden spoon and continue to cook. When completely softened and caramelized, remove from the heat and set aside until ready to build the sandwiches.

For the Au Jus: Place the ingredients for the au jus in a pot and bring to a simmer. Cook for 30-45 minutes, season liberally with salt and strain the solids out.

Toast the buns cut side down on the grill for 5-10 minutes until lightly browned.

To build the sandwiches, place them toasted side up on a sheet tray. Spread the mayonnaise on the bun, top with the thinly sliced meat, then caramelized onions and cheese.

Place the tray directly on the grill grate and cook just until the cheese is melted.

Serve sandwiches hot with au jus. Enjoy!
