## **NATIONAL DON'T FRY DAY**

Each year on the Friday before Memorial Day, National Don't Fry Day aims to raise awareness of all the risks of overexposure to the sun. It is important for everyone to remember to use sun protection and sun safety practices.

Unfortunately, skin cancer is increasing in the United States, and the American Cancer Society estimates that one American dies every hour from skin cancer. The risk for ultraviolet (UV) damage to the skin increases as we spend more time enjoying the outdoors now that warmer weather is upon us. We need to take precautions when we are outside in the sun. Using a good sunscreen of SPF 30 or higher, wearing sunglasses and a wide-brimmed hat are a few ways to get started with sun safety. Skin cancer is curable if it is found early. Be aware of changes on your skin with growths and in moles. See your doctor if you have any concerns. Be safe!

#### **HOW TO OBSERVE #DontFryDay**

Protect your skin when enjoying the outdoors. Use #DontFryDay to post on social media.

#### NATIONAL DON'T FRY DAY HISTORY

The National Council on Skin Cancer Prevention created National Don't Fry Day to increase educational awareness regarding sun overexposure at the start of summer.

#### **UPDATE TO ANSLEY RESIDENTS:**

The Village has received a grant for GIS mapping of our water system. This will provide very detailed mapping of water mains, curb stops, shut offs, water valves, meter pits, fire hydrants etc. with the capability of showing additions and changes to the system well into the future. The project must be completed and paid for by the end of this calendar year before the Village is eligible for reimbursement with the grant funds.

Utility Superintendent Bill Moser has completed the area north of Main Street from the railroad tracks east, and will soon start marking locations on the south side of Main Street from the railroad tracks east with pink flags and pink paint.

When this second quadrant is completed our engineering firm Miller & Associates of Kearney will come in with a drone to record all the locations in that quadrant for the permanent mapping system.

The NW quadrant of Ansley which included everything from Valley Street south to Main Street and from Division Street east to Adrian Street has been completed so residents in that area can now remove the pink flags. FOR RESIDENTS ON THE SOUTH SIDE OF MAIN STREET PLEASE DO NOT REMOVE THE PINK FLAGS MARKING LOCATIONS ON OR NEAR YOUR PROPERTY!

We realize mowing season has started, but once the Engineers have been in and recorded everything in the south side quadrant, we will provide an update that area has been completed and Bill will move to the final area. The Village will really appreciate your cooperation of leaving the flags in place to avoid doubling the work by having to remark. If you have any questions please call the utility department at 935-1400 or the Village office at 935-1467.
